## 01 图书馆学习安静好

Where do you like to study?

Well, I prefer to study at the library because it enables me to study more efficiently. I mean it is very quiet in the library and so I could focus on the things that I'm dealing with like reading books, writing papers, preparing for exams and stuff like that. And I am able to finish them all very quickly. But if I study in my dorm, it will be very noisy because some of my roommates might be talking on the phone loudly and some of them might be playing guitar or something. And so I will get distracted easily and I will not be able to concentrate. (108words)

## 02 题目问啥我爱啥

If you have the chance to go to the outer space, will you go or not?

Well, if I have the chance to go to the outer space, I will definitely go because I love astronomy and I actually want to be an astronomer in the future. So if I could do this, I am able to experience a lot of exciting things like a world without gravity, and I am able to see some beautiful nebulae, especially the Crab nebula which is my favorite. And also, I think if I am lucky enough, I will be able to meet some aliens and stuff which will be fantastic. (92words)

### 03 参加比赛得奖棒

**Talk about a positive even and the result.**

Well, when I was a freshman, I joined a music club on campus because I love singing. And I signed up for a singing competition on campus. Since it was my first time, I was extremely nervous. But in order to do a good job, I practiced hard every day. I spent at least four hours a day at school, practicing dancing and singing and memorizing lyrics and stuff. And to my surprise, I got the first prize, which was really exciting and I was really proud of myself. (89words)

### 04 要死了要死了要死了

**A/D: Students should take a year off before entering college.**

Well I think it's a good idea for students to take a year off before entering college. That's because it can help them take a break. You know students were very busy back in high school. They had to spend at least 10 hours a day at school attending classes, dealing with homework, preparing for exams and stuff and so they were pretty stressed out. Therefore, if they could take a year off, they could travel a lot where they are able to enjoy beautiful scenery, taste delicious food and meet some new friends, which will definitely help them get relaxed. And they will be able to focus better on their schoolwork after entering college. (115words)

## 05 老师上课有意思

**Talk about most your favorite teacher.**

Well, my favorite teacher is my TOEFL speaking teacher Fiona. I like her because her class is very interesting. I mean she always tells some jokes, arranges games or asks us to form groups to do some group discussions or presentations. So I could get actively involved in the class and learn better. But other teachers' classes are a little bit boring: some of them will do all the talking in the class and some of them just show us slides and ask us to write everything down. So I will get distracted and even fall asleep in these classes. (100words)

## 06 捐款传播正能量

**A/D: Celebrities such as athletes and singers are good examples for young people.**

Well I agree with the statement that celebrities are good examples for young people because most of them will devote themselves to charities like making donations and so young people who like them are more likely to do the same things. For example, last month, there was an earthquake in Sichuan and hundreds of people got injured. When this happened, Jay Chow who is a famous singer in China donated 100 thousand dollars. I'm a big fan of him. So when I saw this news on TV, I also donated some of my pocket money. (95words)

## 07 家有贱狗没人看

A/D : people can get happiness from helping others.

Well I agree with the statement that people can get happiness from helping others. That's because in this way, they are able to get a sense of achievement which will make them better people. For example, last week, my neighbor Mr. Smith had to go to Japan for a business meeting. But nobody could take care of his dog and he didn't want to leave it to the pet shop. So he was very worried. When I knew this, I offered to help him. He was very happy which made me happy as well. (94words)

## 08 种树汽车爱环保

How to reduce air pollution ?

Well I think one way to reduce air pollution is planting trees because trees are able to absorb carbon dioxide and release oxygen through a process known as photosynthesis and so the air will become much cleaner. But if not, there will be more and more co2 pouring into the atmosphere. So people might have to wear special masks to protect themselves and some people might get sick like getting lung cancer or something like that. Even worse, some people might even die because of this. (86words)

Well I think one way to reduce air pollution is planting trees because trees are able to absorb carbon dioxide and release oxygen through a process known as photosynthesis and so the air will become much cleaner. Besides, I think people choose to take public transportation like subway or bus because in this way, the number of private cars will be reduced and so there will be less carbon dioxide, sulfur dioxide, or nitrogen monoxide in the atmosphere. So the air quality will improve. (84words)

## 09 勤工俭学事业线

**A/D: students should take a year off to work before entering college.**

Well I think students should take a year off to work before entering college because it can help them decide their major. I mean in this way, they are able to find out what they are interested in and what they are good at. Take me for example, before I entered university, I worked as a part-time teaching assistant in a language training school where I taught a bunch of kids some basic grammar and English words. And I found it very interesting to do this. So after I entered college, I chose education as my major. (99words)

## 10 上网购物方便多

**Where do you like to go shopping?**

Well I like to go shopping on the Internet because it's very convenient. I mean I could just stay at home, choose the stuff I wanna buy like books and stuff, then pay the money online. And after that I could just wait for my package at home. But if I go shopping in a shopping center, I have to drive one hour to get to the nearest shopping center and spend the whole day there shopping around from one store to another, which will be a waste of time. (90words)

## 11 推荐饺子意义大

**If a foreigner comes to your country, what kind of food will you recommend?**

Well, if a foreigner comes to China, I would recommend Chinese dumplings to him because it is a traditional Chinese food with a long history. You know, Chinese people love to eat dumplings during important festivals and holidays, especially during the Spring Festival since it symbolizes family reunion, wealth, as well as happiness and stuff. So I could share all this with my foreign friend to help him gain a better understanding of Chinese culture and history. And when he goes back to his hometown, he could share this with his friends. (92words)

## 12 学习艺术有意思

**Talk about your favorite subject at school.**

Well, I really like art history because I think this course is very interesting. I mean the professor will introduce lots of interesting life stories about different artists in the class. For example, in one of the art history classes, my professor talked about a painter called Henry Darger who had no friends when he was young. At that time, he had a hard time drawing human figures, so he cut pictures from magazines and pasted them onto his own background of paintings, which I thought was pretty interesting. (89words)

## 13 论文布置立马写

**Start writing papers right away or wait until deadline.**

Well, I prefer to start writing all my papers right away because this is good for me. I mean in this way, I could have more time to prepare like going to the library to read some books or getting online to collect some data or when I have some problems, I could ask the professors for help. So I am able to finish them on time. But if I wait until the deadline, I might not be able to submit them on time because of limited time, which will hurt my grades. (93words)

## 14 打工赚钱买买买

**Share a house with other people or rent a house alone.**

Well I prefer to share a house with other people because it could help me save some money. You know I am just a college student and I don't have much money. I have to do some part-time jobs to make some money. So if I could share a house with other people, I could split the rent with others and so I will be able to save some money and the money saved could be used in better places like buying books and stuff. But if I rent a house by myself, I might need to spend more time doing more part-time jobs, which will definitely make me tired. (112words)

## 15 合作社交踢足球

**Kids who take part in team sports have better social abilities.**

Well, I agree with the statement that kids who play team sports can actually have better social skills. That's because I think these kinds of sports like basketball or football actually involve a lot of interaction and communication. And kids actually play them a lot. So for example, when playing football, kids have to work together to come up with different strategies to win the game. And also, they have to practice making long or short pass to each other and stuff like that. So in this whole process, they will talk with each other a lot and communicate with each other a lot which can actually improve their social skills.(111 words)
